

Every day, billions of animals
are fished or slaughtered.
Too much blood is being spilled.
We can live without all this killing.

**Come and march
for the animals !**

**Because meat production
involves
killing the animals**

**that are eaten,
because
their living conditions
and slaughter
cause them to suffer,**

**because
eating animal products
isn't necessary,**

**because sentient beings
must not be mistreated
or killed
unnecessarily;**

**THEREFORE, FARMING, FISHING
AND HUNTING HAVE TO BE ABOLISHED.**
